RESCINDING OF THE ECOLOGICAL SCREEN FOR THE NORTH FIRING RANGE,  
PAC NW-1505, DATED JULY 2005

An Ecological Screen for the North Firing Range, PAC NW-1505, was delivered to EPA and CDPHE in July, 2005 for review. Kaiser-Hill is rescinding this Ecological Screen because the information and analysis was superseded by CRA Volume 6, No Name Gulch Exposure Unit, which was delivered to EPA and CDPHE on August 5, 2005. In accordance with the Regulatory Contact Record, dated August 11, 2005, final configuration of this area is a low mound created by pushing the berms into the center of the range.
